„80”	800	844	1700
„90”	900	944	1900
„100”	1000	1044	2100

A - width of wall passage  
S - width of door leaf unit  
L - length of guide channel

# Technical informations

## CONSTRUCTION

Adjustable door frame is made of high quality wood-based MDF board. On its visual side it is entirely coated with high gloss laminate or Extreme Matt with 0,7 - 0,8 mm thickness. Its construction allows to be used with door leaf with thickness of 40 mm and its design allows to be used on walls ranging between 75-320 mm, also there is possibility for additional adjustment of + 20 mm.

**Glossy laminate** 0,7-0,8 mm thick, it is laminate with high gloss, which consist of an acrylic layer and a layer of coextruded styrene copolymer.

**Xtreme Matt** laminate with 0,8 mm thickness is based on melamine resin with an upper layer of electron quenched function. Structure additionally was reinforced with Anti-Finger-Print feature, which protect laminate surface from finger prints and traces of fat.

## Application

Adjustable non-rebated door frame coated with high gloss laminate or Xtreme Matt can be used with DRE collections: ILIS, NELLA, SILIA and VETRO D2 non-rebated door leaf.

## SET CONTAINS

Main beam (one horizontal and two vertical elements) with wide angular architrave (80 mm) with small rounding angles of the cross-section profile (R2), door seal, a set of hinges, all necessary components for the installation of door frames in accordance with the supplied instruction. Door frames are packed in cardboard boxes.
